

# Update 2020 Rayocomp PS 10 version 59, date 06.08.2020

## Pathogen program:

22.93 Corona viruses

When creating the new RAH spectrum for the corona viruses, the beta corona viruses form 2019-nCoV (Covid-19-) could have been integrated.

## Changes of the RAH program numbers:

04.20 Pulse-modulated radiation / mobile phones complete

04.21 Mobile phone / UMTS

04.22 5G (5G = 5th generation of mobile radio technology)

## New RAH pathology / respiratory programs

RAH 43.52 Coronavirus infections

## New RAH programs pathology / nervous system

RAH 55.56 Cluster headache (Bing-Horton syndrome)

## New compact programs / human

Respiratory area: Compact program RAH 43.52 Coronavirus infections

Nervous system: Compact program RAH 55.56 Cluster headache (Bing-Horton syndrome)

## Integration of the compact programs (human) in the Rayocomp PS 10

## Integration of the compact programs (vet) in the Rayocomp PS 10

## New option in the Rayocomp PS 10 to use the compact programs human / vet "comp"

- Start the device
- Press the button **MODE** 3- times
- „Comp“
- Enter the RAH program number of the compact program
- Confirm with „**OK**“
- **START**

The new „Comp“ option for harmonizing the compact programs is only available if modules 9, 10 (human) or module 11 (veterinary) have been activated in the Rayocomp PS 10.

## New 70s programs

RAH 70.69 cell regeneration

Anti-aging application

## RAH 71.60 R-cervical spine syndrome / RAH 70.70 R-cervical spine syndrome

Clinical study

With RAH 71.60 R-cervical spine syndrome complete, the original program used in the R-HWS-Study has been integrated.

Harmonization time: 2h10min.

RAH 70.70 R-cervical spine syndrome consists of the „quintessence“ of all programs used in the study to prove the effectiveness of BaPS in cervical spine syndrome

Recommended harmonization time: 20 minutes.
